Dear Human Resource Manager :

I am extremely interested in obtaining the training with your company .

I recently graduated with a Bachelor degree of Applied computing from the University of Palestine Technical (Kadoorie) . I now want to apply my skills in your company .

After graduating, I got a front-end developer certification. I designed a several web pages .

I've attached my resume, which further details my skills and educational background.

Thank you for your time and consideration .

Sincerely,

Hamsa Jaber
